Company Profile

Sunlam Laminates India Pvt. Ltd. is among those group of companies that are reputed from last 2 decades in multiple various businesses like educational institution, food products, building materials as well as export-import activities situated at Kolkata, West Bengal, India. We have been exporting our food products from decades together at South East Asia and African States. Among our directors two of them are also owners of few rice mills at different places in West Bengal apart from higher secondary schools, colleges etc and another one is associated with renowned advertising agencies.

HPL Plant is our new diversification under the leadership of a team who were associated with World Renowned Brand in India and abroad since last 30 years.

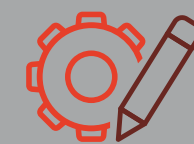

Infrastructure

Our Plant is situated in 5 acre of land at Suri, District: Birbhum, 180 Km from Kolkata. Plant is equipped with all branded & advanced machineries with state-of-the-art. We use state of modern technology to produce top notch decorative laminates having 100% phenolic resin. All our finishes and textures are imported.

Our Team

Our organisation consists of best designers, technocrats, quality controllers, skilled workers, sales & marketing as well as logistic personnel. They have the experience and abilities to deal with the advancement in the field of technology and servicing since last 30 years.

Customization

With years of experience behind us, our professionals can design products as per clients requirements and manufacture accordingly with in defined MOQ.

We are

ENSURING ALL THE COMPLIANCE'S
AND SAFETY RULES IN OUR FACTORY / WAREHOUSE

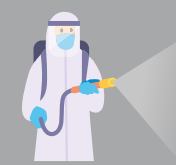

WE ARE FOLLOWING IN ROUTINE

Hand Wash

Thermal Screening

Sanitization

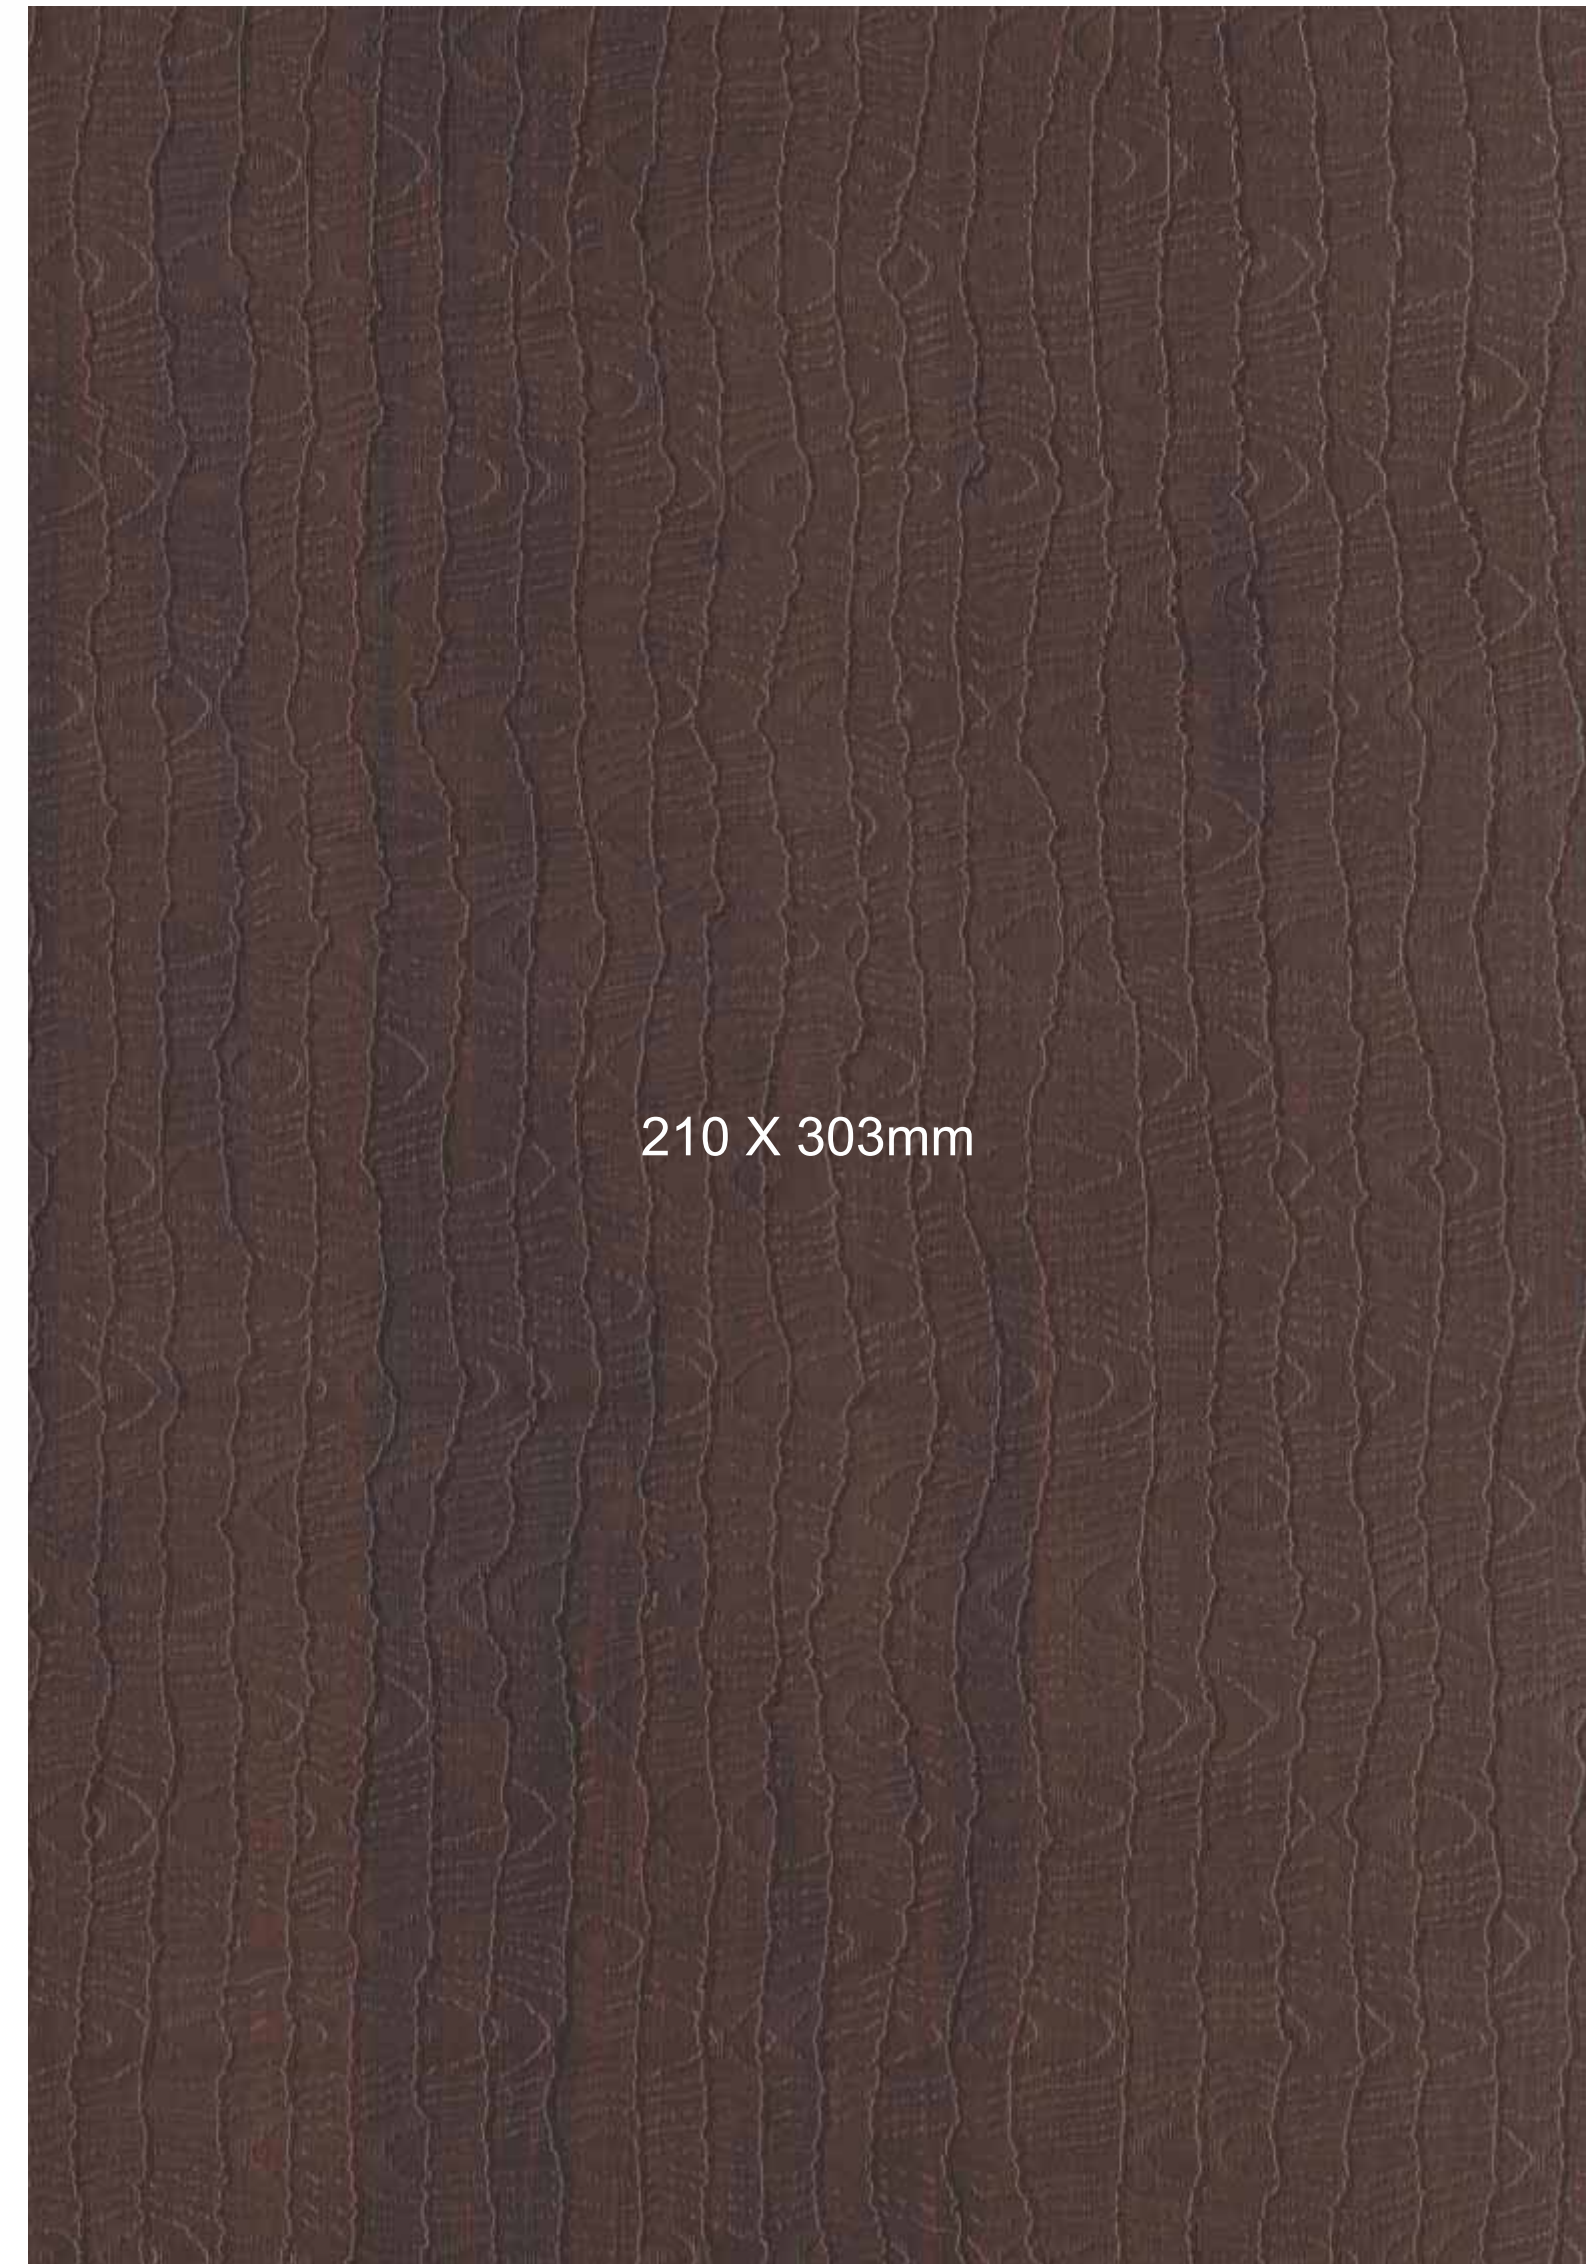

Social Distancing

Resistance to Scratching	N	1.75	✓
Resistance to staining	Grade		
a) Group 1 & 2		5	✓
b) Group 3 & 4		4	✓
Resistance to Colour Change	Grade		
In Enclosed Carbon Arc Light		5	✓
Resistance to Steam	Grade	4	✓

Do not use chemicals for cleaning.

Avoid direct sunlight / continuous light. This may cause color fading.

Extra care is required in vertical pasting of laminates sheets as there is possibility of bubbles due to lack of uniform pressure.

Cracking at corners and around the cuts may be caused due to improper conditioning, improper bonding or poor planning. Avoid all these to prevent cracking at corners.

Notes:

Samples pasted, represent only colour, pattern and finish, not actual thickness. There may be slight variation in shades in batch to batch. Bonding of laminate under high humidity, plywood with high moisture content, ply with uneven surface, interior quality adhesive and insufficient pressure may lead to delamination/ air bubbles in between ply and laminates.

Our products are free from manufacturing defects and they are fit and suitable for usual purpose under normal and proper use. The product must be inspected prior to installation and our liability will be limited to the extent of the product only.
